LETTER TO HIROSHIMA ALTS

July 1st, 2026

hiro.scholarship@gmail.com

Greetings Hiroshima ALTs!

We are pleased to introduce the Hiroshima JET Scholarship Fund (HJSF) to you and your schools!

The HJSF is a volunteer organization created by JET ALTs and CIRs. Our mission is to financially support students in Hiroshima Prefecture who dream of studying abroad and bettering their English abilities. Annually, HJSF awards exceptional students cash prize scholarships for the purpose of funding a study abroad experience. Through fundraisers, events, and community outreach, the HJSF collects donations and receives grants to support our operations.

For the 2026-2027 application cycle, the HJSF will award one student a ¥300,000 scholarship.

This packet contains everything you need to know in order to give your students the opportunity to apply for our scholarship. To better understand the ALT's, JTE's, and student's role in the Hiroshima JET Scholarship Fund application process, please take a moment to read over the material in this information packet.

HJSF has gone paperless this year, so we will no longer be accepting applications by mail. Our applications may be found on our website through three online forms. These forms and who needs to complete them are laid out in this information packet.

The HJSF greatly appreciates your continued support as we continue to make our students' dreams of studying abroad a reality!

Best regards,

The Hiroshima JET Scholarship Fund Committee

ABOUT THE SCHOLARSHIP

The Hiroshima JET Scholarship Fund Committee is a group of independent volunteers composed of JET ALTs and CIRs who live and work in communities, schools and government offices in Hiroshima. In the spirit of promoting international exchange and students' practical English communication abilities, the HJSF is offering a scholarship to students attending schools within Hiroshima prefecture.

The ideal candidate for the scholarship does not need to attend an academically oriented school or have strong English skills. The most important factor that will be considered is a student's sincere interest in learning English and participating in cultural exchange. Strong applicants will often be involved in extracurricular and community activities and will demonstrate their motivation to travel and study in a foreign country.

Please note: **This is a scholarship, not a loan. Successful applicants do not need to repay their scholarship.**

*** Qualifying applicants must attend a school in Hiroshima where a JET Programme ALT is present.**

Only students who are in their 2nd or 3rd year of Junior High School, or their 1st or 2nd year of High School at the time of submitting the application are eligible to apply. *

APPLICATION TIMELINE

ROLE OF THE ALT

As a Hiroshima ALT, you will be the primary source of scholarship information at your school(s). Your involvement in the advertisement and application process is crucial. There is no limit on the number of applicants per school, and the selection of the recipient will not be based solely on English ability. As such, we hope you will promote the scholarship to all students who might be interested and support them in their application process.

What you should do:

1. Promote

See page 6.

2. Assist

Encourage students to challenge themselves and apply for the scholarship!

Familiarize yourself with the process so you can answer any questions that students or JTEs might have. If you have any questions, you can always email the scholarship committee at hiro.scholarship@gmail.com

Note: It's perfectly fine to help your students find appropriate English focused programs and understand the application forms. You may help students with editing their applications (grammar and spelling), however, please allow students to write in their own words.

3. Prepare

After the application process is complete, applicants will be notified on whether they will be continuing on to the interview stage. Please feel free to help them prepare for the interview.

Study Tip: As our interview questions may change every year, we recommend utilizing the application questions and the student's responses to practice several interaction styles: Interview Q & A, Conversational Exchange, Expanding on their responses, and Formulating their own questions.

PROMOTE

As the ALT, you are the first connection between the scholarship and your students. Through your efforts of spreading the word, we are able to connect to an amazing pool of aspiring applicants!

Follow these five simple steps to promote the HJSF 2026 - 2027 scholarship:

1. **Familiarize yourself with the scholarship** so you are prepared to answer questions you may receive when you are introducing it to your JTEs and students. This is the first step to successfully promoting the scholarship.

Visit our website for more information. <https://www.hjsfund.org/>

2. **Talk to your JTEs and Supervisor** and share with them the “Letter to JTEs, etc.” (page 13) and the application packet (available for download on our website). Please ensure that you follow the chain of command in your office; talk to your supervisor and head English Teacher first and get their approval.

3. **Display our promotional poster.** 3 posters are included in this informational package. To display additional colored posters around your school, please go to:

<https://www.hjsfund.org/for-teachers> to find the printable poster available for download.

4. **Present the scholarship to your students.** Request 5 minutes of class time in as many classes as possible to promote the scholarship. If you have access to a projector, you can download the promotional slideshow at <https://www.hjsfund.org/for-teachers> or scan the QR code below. In this presentation, let them know the most important points and encourage them to talk to you if they want more information.

5. **Review the application with interested students.** For the 2026-2027 cycle, applications will only be accepted online. Please visit our website at the link listed below or scan the QR code and orient yourself with the three forms required so you can better explain the process to your students. <https://www.hjsfund.org/apply-online>

* Timing *

In order to allow students enough time to prepare their applications and receive their ALT's and JTEs' support, we suggest having the posters up and scholarship presentations finished **before or immediately after** the student's summer vacation (July - August). From promotion to application completion, students, JTEs and ALTs must coordinate together and utilize the four-month application period efficiently.

ASSIST

Beyond promoting the HJSF scholarship, ALTs may also assist students as they prepare their applications. If asked for help, ALTs can assist students in the following ways:

1. ALT Student Evaluation Form **Optional for students**

This form is found on our website: <https://www.hjsfund.org/apply-online>

Note: The student can ask their ALT to complete this optional form. If you are asked to complete this form, you must fill out the form to the best of your knowledge and submit it on our website no later than October 31st, 2026.

2. Editing the Application

When it comes to helping with the application, you can check their personal statements for grammar and spelling errors, but the content should be written solely by the student.

Note: You can also assist the sponsoring JTE with understanding the student evaluation forms. (Once again, the content should be written in the JTE's own words.)

PREPARE

Selected students will be notified of the available interview time slots once the HJSF committee finishes the application selection process.

It is recommended that students prepare by expanding on their application responses and the motivations behind them. Questions may go beyond the scope of the application, so students should practice various styles of speaking (Interview, conversation, monologue, question-asking).

Interviews will take place in person. The students selected for the interview will be informed of the location and dates at a later date. The commute from applicants' home to the interview venue will be covered by the HJSF. For the interview, students must wear their school uniforms.

POTENTIAL CHALLENGES

At the end of the day, this scholarship is about giving back to our schools and students, and we don't want to make your workplace uncomfortable.

If you are unable to use class time to talk about the scholarship to students, upon your school's approval, here are some other techniques you can do:

1. Ask to put up more posters
2. Collaborate with your JTEs to share the information
3. Spend a few minutes after class to talk and engage with students
4. Encourage clubs you may be a part of to consider the opportunity

Spread the word! If the students don't know about the scholarship, they can't apply for it, and they could miss out on a truly life-changing experience. Your school may also place limitations on who can apply (for example, only first year students). That's okay! Work with your school(s) and their needs.

THE ALT'S SCHOLARSHIP CHECKLIST

- ☐ Introduce the scholarship to your supervisor, head English teacher, and school staff. Share the information packet, letters, and links to applications with them.
- ☐ Display posters around the school (in classrooms, the library, etc.). Print color photocopies of the posters, if necessary. (Available to download on our website).
- ☐ Introduce the scholarship to your students.
- ☐ Assist students and teachers if they ask for help.
- ☐ Help students manage their time to complete their applications.
(Due October 31st, 2026)
- ☐ Work with students to prepare for their interviews.
- ☐ Congratulate your students for trying their best!

ROLE OF THE JTE

Beyond granting approval for the scholarship process, sponsoring JTEs will likewise help promote, assist, and prepare students for their applications and interviews. When JTEs and ALTs work together to promote the HJSF scholarship, the outreach is tremendous.

Teachers are responsible for:

1. The Student Evaluation

This form is found on our website: <https://www.hjsfund.org/apply-online>

Note: The student must ask a Japanese Teacher of English (JTE) to fill out this form in English. The JTE must then fill out the form to the best of their knowledge and submit it on our website no later than October 31st, 2026.

2. Editing the Application

When it comes to helping with the application, JTEs can check students' personal statements for grammar and spelling errors, but the content should be written solely by the student.

3. Submitting the Application

It is best practice to ensure that a student understands the application and has all required portions completed before submitting. If a student asks for assistance, that is up to the discretion of the ALT and JTE.

*Note: Applications must be submitted on our website no later than **October 31st, 2026**.*

4. Preparing for the Interview

It is recommended that applicants practice speaking with as many different people as possible prior to their interview.
